*SEC. 4201. Coverage of diagnostic testing for COVID-19.

(a) In general.—A group health plan and a health insurance issuer offering group or individual health insurance coverage (including a grandfathered health plan (as defined in section 1251(e) of the Patient Protection and Affordable Care Act ([42 U.S.C. 18011\(b\)](#))) shall provide coverage, and shall not impose any cost-sharing (including deductibles, copayments, and coinsurance) requirements or prior authorization or other medical management requirements, for the following items and services furnished during any portion of the public health emergency declared by the Secretary of Health and Human Services pursuant to section 319 of the Public Health Service Act on January 31, 2020, with respect to COVID-19, beginning on or after the date of the enactment of this Act:

(1) An in vitro diagnostic product (as defined in section 809.3(a) of title 21, Code of Federal Regulations) for the detection of SARS-CoV-2 or the diagnosis of the virus that causes COVID-19, and the administration of such an in vitro diagnostic product, that—

(A) is approved, cleared, or authorized under section 510(k), 513, 515, or 564 of the Federal Food, Drug, and Cosmetic Act ([21 U.S.C. 360\(k\)](#), 360c, 360e, 360bbb-3);

(B) is a clinical laboratory service performed in a laboratory (including a public health laboratory) certified to conduct high-complexity testing pursuant to section 353 of the Public Health Service Act ([42 U.S.C. 253a](#)) for which the developer has requested, or intends to request, emergency use authorization under section 564 of the Federal Food, Drug, and Cosmetic Act ([21 U.S.C. 360bbb-3](#)), unless and until the emergency use authorization

request under such section 564 has been denied or the developer of such test does not submit a request under such section within a reasonable timeframe; or

(C) is developed in a State that has notified the Secretary of Health and Human Services of its intention to review tests intended to diagnose COVID-19.

(2) Items and services furnished to an individual during health care provider office visits, urgent care center visits, and emergency room visits that result in an order for or administration of an in vitro diagnostic product described in paragraph (1), but only to the extent such items and services relate to the furnishing or administration of such product or to the evaluation of such individual for purposes of determining the need of such individual for such product.
